About InterGateway Freight

GLOBAL Partners

About InterGateway Freight

We are a global logistics and supply chain company that helps businesses who struggle placing their product or business on the market with the correct operations and management. We move business and industry through innovation, inspiration, and foresight. We deliver excellence in end-to-end logistics and supply chain management with our extensive network both locally and internationally.

We pride ourselves in helping our customers to sustain efficient and cost-effective operations using our flexible custom logistic solutions. We invest our time and effort in understanding our customers' problems, propose customized solutions that fit their needs, and execute with excellence.

Our core focus is to ensure that customers goods and services flow to the marketplace quickly, timely, efficiently and as cost-effectively as possible. Therefore, our fully customizable, end-to-end supply chain strategy fits perfectly to help our customers gain competitive advantage. We also ensure that our 360-degree solution has high flexibility and visibility to cater to different business needs. Our personalized approach to each and every client provides the smoothest possible handling of customers freight or shipment. We proudly assume our role as an extension of logistic division and partner to our clients.

We have a global presence in regions like Asia-Pacific, Europe, and America. We have amassed a substantial network of partners around the world and built strong partnerships with various industrial experts to ensure our solutions are all encompassing.

Our Vision

We aim to be the most reliable Freight Forwarding, Removals & Relocation, and Project Logistics Management Company in the market with an inspired, people-driven and dedicated approach to serving our valued customers.

Our Mission

- To continuously strive for superior experience for our customer with our highly customizable logistics solutions, designed for specific needs of our customers
- To maintain the highest professional standards and deliver world class services to our clients locally, regionally and internationally
- To develop long-term, trustable relationship with like-minded companies who rely on price sensitive logistics solutions
- To provide quality, excellent services regardless of how big or small the shipments or projects are
- To focus on enhancing or developing new strategies using our cost-effective professional approach

Our Team

Our leadership team is responsible for guiding and prioritizing all the initiatives that set the overall strategy and direction for the company. We have a team of skilled leaders and dynamic team members with an accumulation of over 20 years of experience in a myriad of industries and all aspects of logistics and supply chain. Their expertise and knowledge enable us to execute on our business plan and continue to increase value for our shareholders.

It is through our team's exceptional services and renowned expertise that set us apart from our competitors. With our high-quality company culture, our customers can have total confidence in our services and offerings.

We understand that logistics and supply chain management require a mixture of skill sets and mindsets. Thus, we ensure only select go-getter individual who is passionate in particular vertical or individual who possesses excellent leadership skills are chosen to join our team.

Core Values & Company Culture

High Performance

We encourage and value high performers through a well-established open-styled feedback loop that enable healthy communications internally. This, in turn, affects relationship building with partners and stakeholders. And as well as delivering high-quality services for our clients.

Customer-Oriented

The needs of our customers and communities are paramount to us. It is through excellent delivery and services that we can build a strong network in a connected world. We understand that a diversified portfolio of transportations and business logistics solutions will bring more opportunities on which our customers are counting on.

Innovation

We embrace failures and learning from mistakes. We continually support creative ideas from anyone regardless of background or function to promote creative problem-solving solutions. This, in turn, will sustain our excellent service delivery to our customers.

Accountability & Integrity

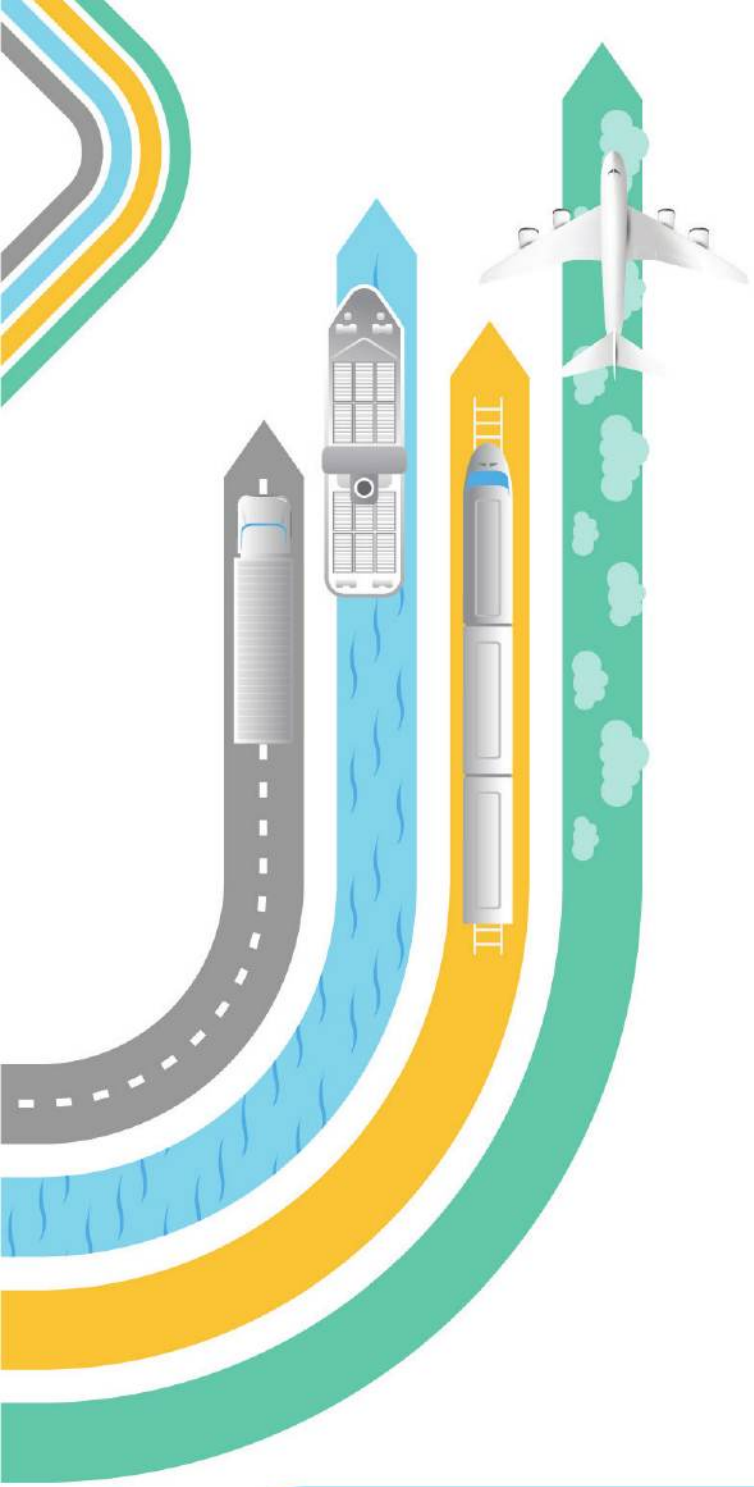

Through ownership and empowerment we ensure our team can meet the highest ethical and professional standards in their work performance and relationship with customers. Our structured feedback strategy also enables the management team to monitor employee's satisfaction level regularly and alleviate any potential issues fast.

Collaborative Workplace

We practice open and transparent communication where everyone at every level is encouraged to share ideas and feedbacks. We also encourage peer involvement in projects outside of their core function to inculcate camaraderie and teamwork.

Our Services

Our Commitment, Our Promises

Flexible • Customizable • Customer-Oriented

We are committed to establishing and maintaining enduring partnerships with our clients through highest quality performance, efficient services, and creative problem-solving solutions.

We strive to ensure our supply chain services get your goods or businesses to marketplaces quickly, timely and cost effectively. By partnering up with transportation companies around the country and throughout the globe, we are ready to help you handle your logistic challenges.

Supply Chain Solutions

InterGateway Freight specializes in highly flexible custom supply chain solution from planning to delivery. We listen to our customers unique business needs and can quickly focus on whichever part of the supply chain that requires attention. We work diligently with our clients to increase their order visibility, reduce surplus inventory, control inflated delivery cycle time, monitor and assign accountability, and reduce overall supply chain cost through the use of leading-edge information technology combined with our team of experienced logistics experts.

PLAN › MAKE › MOVE › DELIVER

PLANE › MAKE › MOVE › DELIVER

PLAN

You will gain access to a team that helps you optimize the planning of your supply chain. You will get consultations from logistics industry experts, which may include custom compliance, export restrictions, risk management, coordination of orders across your business, and much more.

MAKE

We will sort our your sourcing variables, prepare necessary paperwork and help push the start of shipment cycle. We can consolidate, deconsolidate your cargo, or perform special cargo handling depending on the needs.

MOVE

You will be guided through your shipment movement with detailed visibility, which may include customs, cargo release or monitoring of different modes of transit.

DELIVER

We provide flexible delivery options that also include multimodal delivery. We can also facilitate various order fulfillment and management for you to support your supply chain cycle.

Logistics Management Services

We provide end-to-end, highly customizable supply chain solutions to our customers from the source to the final destination to ensure all requirements are met. These solutions are also highly flexible as transportation needs change all the time.

Air Freight Forwarding	Ocean Freight Forwarding	Cross-Border Transportation

Selecting an efficient and cost-effective transportation option can be challenging. Even more so when your needs are constantly changing. To best support your ever-changing logistics need, we work with you to create a flexible custom solution that is highly reliable. Our solutions also include customizable value added services and assets, such as capacity programs, direct delivery, time-definite services, cross dock, temperature control, garment on hanger, FCL/LCT charters, project cargo services, warehousing and distributions, specialty cargo, and many others.

Air Freight Forwarding

We provide a complete package of air logistics solutions. Airfreight can be a premium and costly service, so we focus on quick transit and constant communication. We will also do consolidation and intermodal options to seize cost saving opportunities.

Ocean Freight Forwarding

Our ocean freight forwarding includes services like consolidation, and LCL or FCL container management. We offer highly flexible scheduling to cater to clients specific needs.

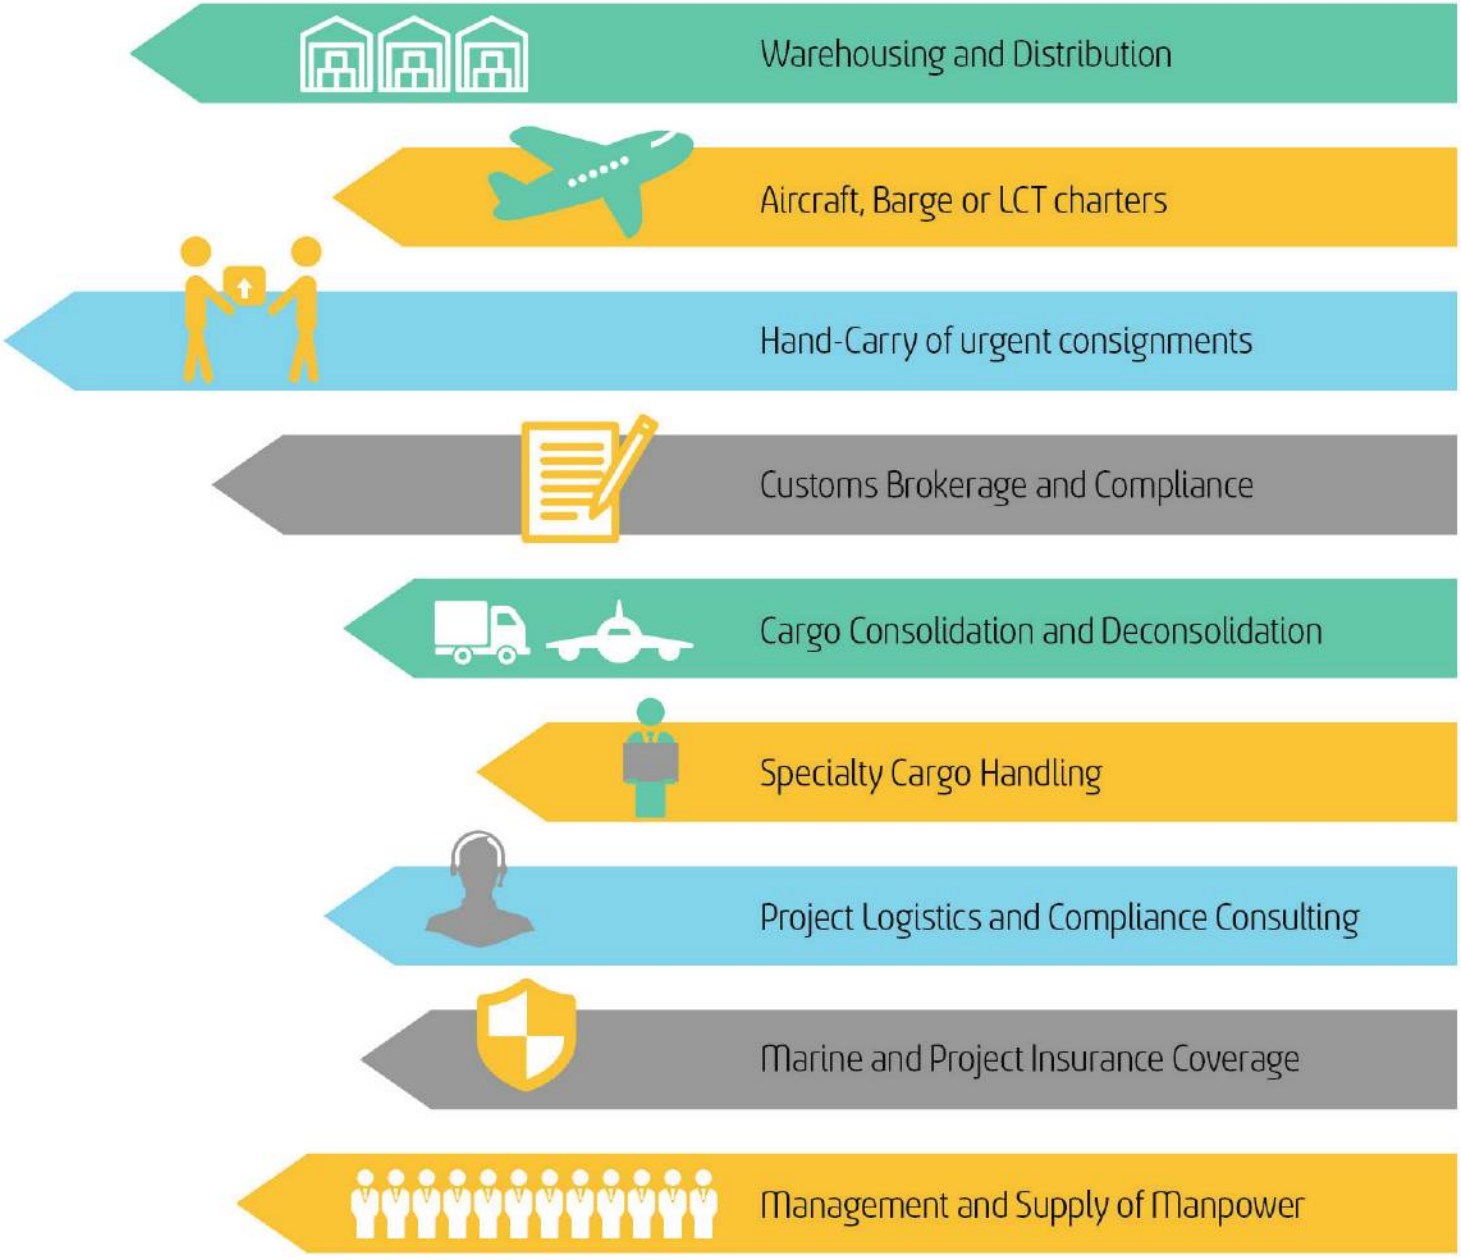

Cross-Border Transportation

We have a reliable network of transportation carrier to cater to nationwide transportation service needs, which includes international border as well.

Inbound Logistics and Other Interconnected Services

Our services are all encompassing with the objective to fully support our customer's logistics and supply chain needs. Companies partnering with us will find themselves with an extended team of experts, which will work seamlessly with your in-house team focusing on the end-to-end supply chain management.

The value added services included in our solution are such like material handling, storage, manpower and administration, and much more. The services and assets are listed but not limited to the following.
